2.0 PARTIES

- Xplicit Digital Solutions
- Vine Fruits Children's School

3.0 Background

On this day 1st January 2022 we offer to sell our product to you, and you will have the license to use it as your own on the condition that the terms highlighted in 5.0a and 5.0b are fulfilled.

4.0 Work Terms

- a. The product is ready according to your specification and Mr Chukwu Nadim, your proprietor received deliverables time to time while the implementation was going on. Some of the deliverables include and not limited to generated report sheets for nursery and primary, generated school receipts, etc. Additionally, we had Zoom online session with him on two different occasions whereby he was shown and taken through what the Admin functionalities are all about.

- b. After the completion, we bought domains and hosted your work online which lasted for about a month and half so that you could test and give feedback to us in order to make amendment and necessary updates where applicable. The staff testing has not been carried out even though we requested countless number of times from him, but he did not make your staff available. As it is, the staff training is a very essential part of the product's validation phase. Both of us should agree on certain day(s) and time(s) that this training(s) will take place.

5.0 Payment Terms

- a. We acknowledge that we have received ₦10,000 as part of the procurement payment from you. This means you have ₦55,000 more to pay based on our initial agreement. You will make this payment after successful testing and validation.
- b. On the 10th week of every term you shall be charged a subscription fee per pupil. We shall calculate this fee according to the space that your school data, files, and information will occupy on our hosting memory space. We are ever kind and grateful to our clients that refer us to other schools by offering a discounted subscription rate. In simple terms, if you refer us to a school that later has a concrete agreement with us we will discount you 50% of your next subscription, that means if you refer to two schools for example, you will get 100% discount, meaning you will not pay at all, so if you refer on and on like that you continue getting that discount and we will sure in fact pay you monetarily. For you, your subscription charge will be ₦200 per pupil per term.
